Duodi Investments S.à r.l.
Private Limited Liability Company
R.C.S. Luxembourg B 166.644

Notes to the annual accounts as at March 31, 2014

Note 1 - General Information

Duodi Investments S.à r.l. (the "Company") was incorporated on January 19, 2012 and organized under the laws of Luxembourg in the form of a Private Limited Liability Company (Société à responsabilité limitée) for an unlimited period.

Its registered office is established at 6, rue Eugène Ruppert, L-2453 Luxembourg.

The Company's financial year starts on April 1 and ends on March 31 of each year.

The Company object is the acquisition, the management, the enhancement and the disposal of participations in whichever form in domestic and foreign companies. The Company may also contract loans and grant all kinds of support, loans, advances and guarantees to companies, in which it has a direct or indirect participation or which are members of the same group.

It may open branches in Luxembourg and abroad.

Furthermore, the Company may acquire and dispose of all other securities by way of subscription, purchase, exchange, sale or otherwise. It may also acquire, enhance and dispose of patents and licenses, as well as rights deriving therefrom or supplementing them.

In addition, the Company may acquire, manage, enhance and dispose of real estate located in Luxembourg or abroad.

In general, the Company may carry out all commercial, industrial and financial operations, whether in the area of securities or of real estate, likely to enhance or to supplement the above-mentioned purposes.

Based on the criteria defined by Luxembourg law, the Company is exempted from the obligation to draw up consolidated accounts and a consolidated management report for the year ending March 31, 2014. Therefore, in accordance with the legal provisions, these annual accounts were presented on a non-consolidated basis for the approval of the sole shareholder during the Annual General Meeting.

Note 2 - Significant accounting policies

2.1 General principles

The annual accounts have been prepared in accordance with Luxembourg legal and regulatory requirements under the historical cost convention. Accounting policies and valuation rules are, besides the ones laid down by the Law of 10 August 1915 and the amended laws of 19 December 2002 and 10 December 2010, determined and applied by the Board of Managers.

The preparation of annual accounts requires the use of certain critical accounting estimates. It also requires the Board of Managers to exercise its judgement in the process of applying the accounting policies. Changes in assumptions may have a significant impact on the annual accounts in the period in which the assumptions changed. Management believes that the underlying assumptions are appropriate and that the annual accounts therefore present the financial position and results fairly.

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities in the next financial year. Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of futures events that are believed to be reasonable under the circumstances.

2.2 Significant accounting policies

The main valuation rules applied by the Company are the following, in accordance with the principles described above:

2.2.1 Formation expenses

The formation expenses of the Company are directly charged to the profit and loss account of the year in which they are incurred.

2.2.2 Financial assets

Shares in affiliated undertakings and loans granted to affiliated undertakings are valued at purchase price including the expenses incidental thereto.

In case of a durable depreciation in value according to the opinion of the Managers, value adjustments are made in respect of fixed assets, so that they are valued at the lower figure to be attributed to them at the balance sheet date. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

2.2.3 Debtors

Debtors are valued at their nominal value. They are subject to value adjustments where their recovery is compromised. These value adjustments are not continued if the reasons for which the value adjustments were made have ceased to apply.

2.2.4 Cash at bank and in hand

Cash is valued at its nominal value.

Notes to the annual accounts as at March 31, 2014

2.2.5 Foreign currency translation

The accounts are expressed in GBP.

Transactions expressed in currencies other than GBP are translated into GBP at the exchange rate effective at the time of the transaction.

Formation expenses and long-term assets expressed in currencies other than GBP are translated into GBP at the exchange rate effective at the time of the transaction. At the balance sheet date, these assets remain translated at historic exchange rates.

Cash at bank is translated at the exchange rate effective at the balance sheet date. Exchange losses and gains are recorded in the profit and loss account of the year.

Other assets and liabilities are translated separately respectively at the lower or at the higher of the value converted at the historic exchange rate or the value determined on the basis of the exchange rates effective at the balance sheet date. The unrealized exchange losses are recorded in the profit and loss account. The realized exchange gains are recorded in the profit and loss account at the moment of their realization.

Where there is an economic link between an asset and a liability, these are valued in total according to the method described above and the net unrealized loss is recorded in the profit and loss account and the net unrealized gain is not recognized.

Assets and liabilities items which are fair valued are converted at the exchange rates effective at the balance sheet date. Foreign exchange differences on those items which are accounted at fair value are recognized in the profit and loss account or revaluation reserves with the change in fair value.

2.2.6 Provisions

Provisions are intended to cover losses or debts, the nature of which is clearly defined and which, at the date of the balance sheet, are either likely to be incurred or certain to be incurred but uncertain as to their amount or the date on which they will arise.

Provisions may also be created to cover charges which originate in the financial year under review or in a previous financial year, the nature of which is clearly defined and which at the date of the balance sheet are either likely to be incurred or certain to be incurred but uncertain as to their amount or the date on which they will arise.

Provisions for taxation corresponding to the tax liability estimated by the Company for the financial years for which the tax return has not yet been filed are recorded under the caption "Tax debts". The advance payments are shown in the assets of the balance sheet under the "Other receivables" item.

2.2.7 Debts

Debts are valued at their reimbursement value.
